

POST 484 June Message

Is It Time to come out of Hiding?

I write this message with hesitation, as much as I was so excited to finally get a haircut and eat outside and get a round of golf in, I pray that all of us will stay safe and well and use common sense as we go back out into society.

This COVID-19 virus has play havoc with individual family's existences, our country and Mt. Washington Post 484. The American Legion from National Department, Ohio Department and District levels has cancelled numerous events and conferences for 2020. These same events and conferences for Ladies Auxiliary, Sons of American Legion and Legion Riders have also been affected.

I can understand those that hesitate to come out of hiding, but as I pray daily, that God will show us the way to win this battle and bring us all back stronger to some kind of everyday life.
